La industria audiovisual en España 2010: escenarios de un futuro digital

la industria audiovisual en España
escenarios de un futuro digital

Se han detectado e identificado aquellas necesidades formativas requeridas por el sector audiovisual para adaptarse a este nuevo escenario que se abre en el horizonte, y que abarcan desde la capacitación técnica en las nuevas tecnologías, hasta la gestión de los modelos de negocio surgidos del propio desarrollo digital

- FACES NG (Imeji)

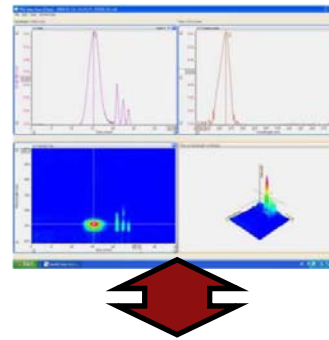

TEI Repository

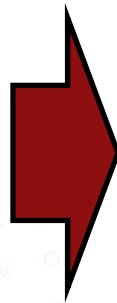

- Repository for storing textual resources in TEI
- Various disseminations (XML, HTML, Word, PDF, LaTeX)
- New disseminations can be added easily
- Powerful search capabilities included, XPath support
- Search in texts or collections
- Collection management
- Release management workflow
- Personal workspace
- publish documents or collections
- Upload textual resources with automatic metadata extraction

BW-eLabs Overview

FACES NG (Imeji)

- User uploads of images (from browser or desktop)
- Easy metadata profile definitions
- Prepared for massive image quantities
- Prepared for massive metadata enrichment
 - Target scenario: 100,000 images are edited at a time
- Automatic metadata extraction
- Customizable look-n-feel for collections

Digitization Lifecycle

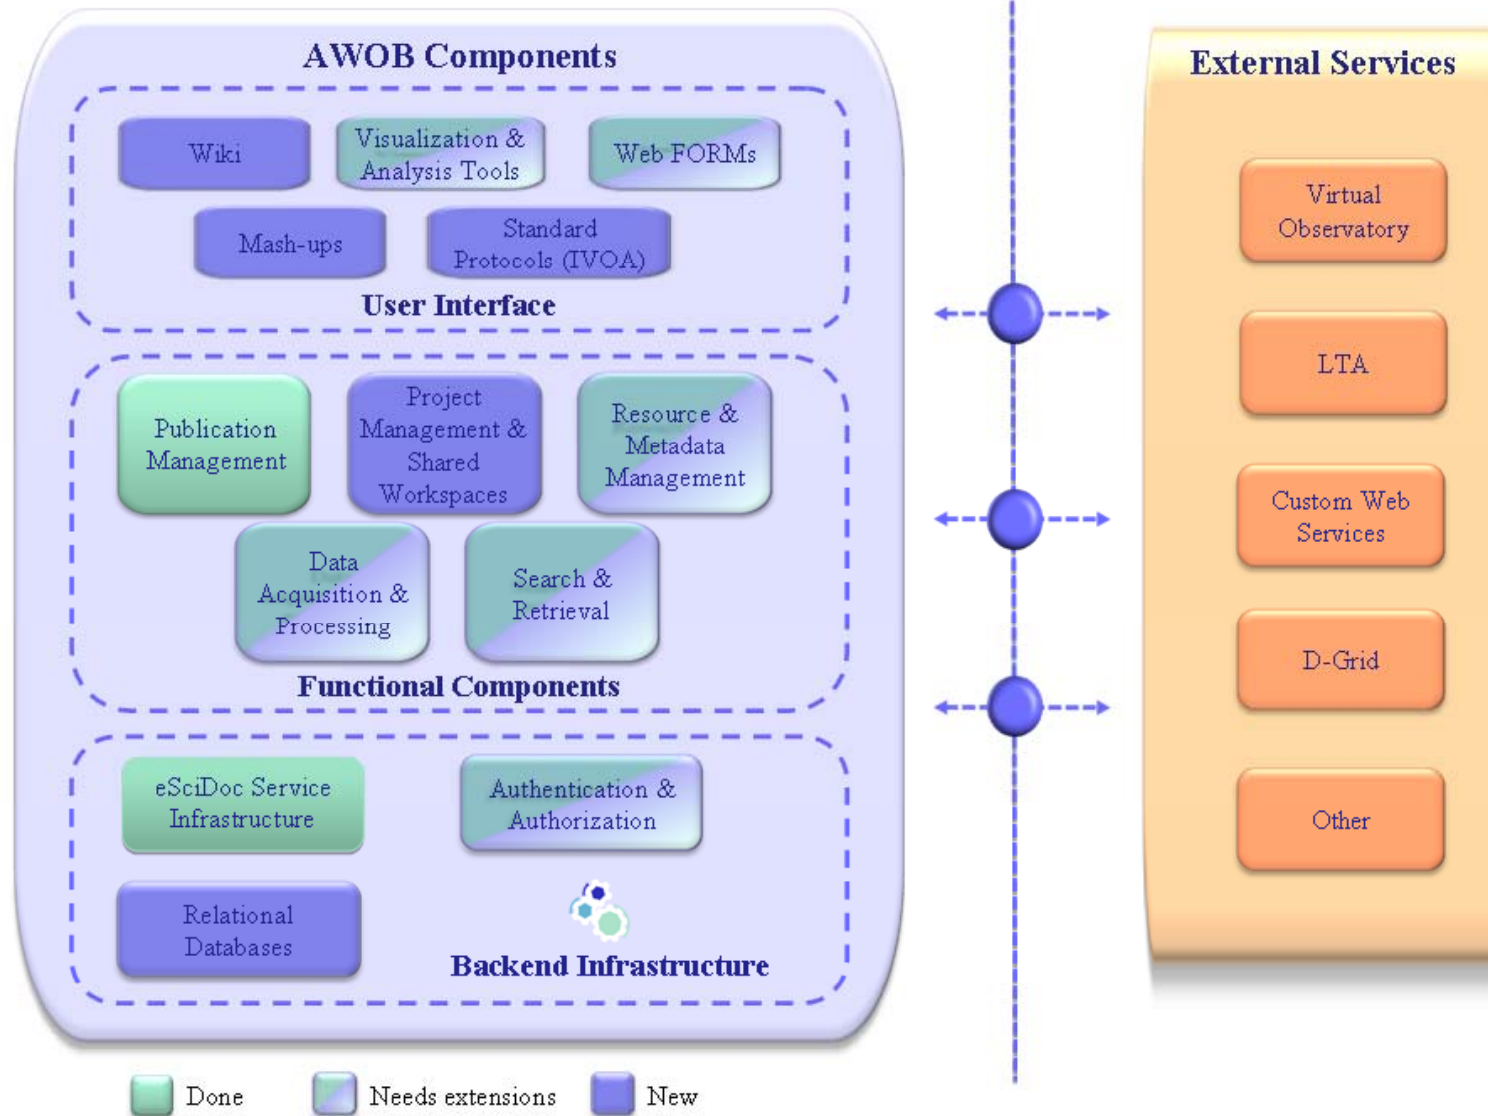

- Massive VIRR extension involved
- User uploads
- Customizable look-n-feel for collections
- Integration of data specifics from arts, humanities, legal and education
- Collaboration support
- TEI support for textual resources

Astronomer's Workbench

- Connecting
 - Publications
 - Tools
 - Research Data
 - Supplementary Material
- In a collaborative environment
- For projects

Lifecycle Logger

- Biochemistry
- Development of a system to describe, categorize and archive research data throughout the whole scientific workflow
- Connect
 - Devices (i.e. Electron Microscopes)
 - Different Formats
 - Storage facilities
 - Phases within scientific workflow
- Make all data citable
