

Writing Scientific Papers: Talent or Training?

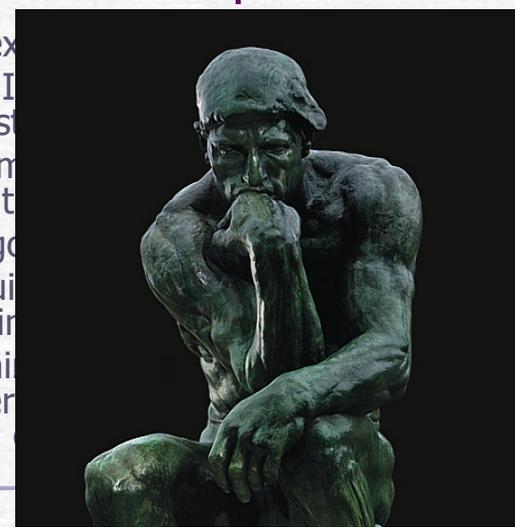

Enrico TRAVERSA

WP International Research Center for Materials
Nanoarchitectonics (MANA), National Institute for
Materials Science (NIMS), Tsukuba, Japan

第7回NIMSオープンセミナー「Writing Scientific Papers」
Prof. Enrico Traversa, National Institute for Materials Science
2009年3月9・10日 (独)物質・材料研究機構 千現地区 第一会議室 主催: 科学情報室
注: プレゼンテーションと一部異なる場合があります。

Should I accept the invitation?

- my ex
 - how I
 - and st
 - the im
 - how t
 - the go
 - to bui
 - of mir
 - learn
 - paper
 - stem
- workers

- skills
- clarity
- to write
- ls to

Enrico TRAVERSA

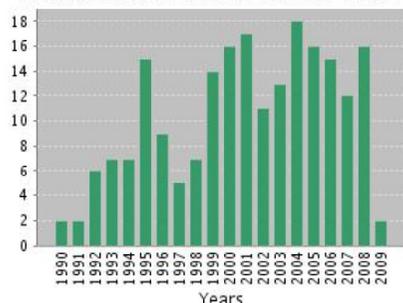

1986 PhD in Chemical Engineering, Univ. Rome La Sapienza

Academic positions

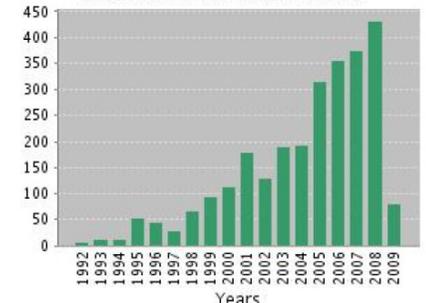

- 1988-1992 Assistant Professor (Ricercatore), Dept. Chemical Science and Technology, Univ. Rome Tor Vergata
- 1992-2000 Associate Professor of Materials Technology, Univ. Rome Tor Vergata
- 2000- date Full Professor of Materials Science and Technology, Univ. Rome Tor Vergata
- 2001- date Director of the Doctorate Course in **Materials for Health, Environment and Energy**, Univ. Rome Tor Vergata
- 2009- date Principal Investigator at WP International Research Center for Materials Nanoarchitectonics (MANA), National Institute for Materials Science (NIMS), Tsukuba, Japan

My first paper on ceramics:

Journal of the European Ceramic Society 7 (1991) 31–39

The Mechanism of $MgAl_2O_4$ Spinel Formation
from the Thermal Decomposition of Coprecipitated
Hydroxides

G. Gusmano, P. Nunziante, E. Traversa

Dip. Scienze e Tecnologie Chimiche, II Università di Roma "Tor Vergata", Via O. Raimondo, 00173 Roma, Italy

&

G. Chiozzini

Ist. Teoria e Struttura Elettronica, C.N.R., Area della Ricerca di Roma, Via Salaria Km 28.500, 00016
Monterotondo Stazione (ROMA), Italy

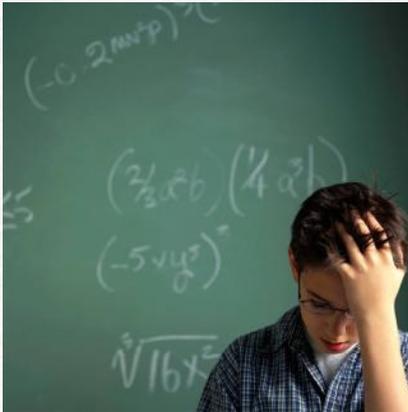

(Received 6 July 1990; accepted 25 July 1990)

It took me 9 months to write it!!!

Like a delivery!

It was a learning experience

The paper was accepted without revisions:

Talent!

Prof. Yoshihiko Sadaoka

First meeting: Roma, September 1990

Visiting Matsuyama to write papers

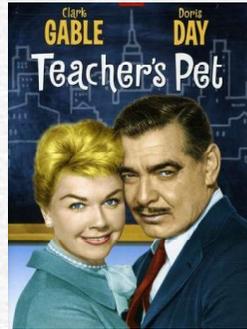

Training!

Guidance and tutoring of students

- 22 Master Thesis Students
- 30 PhD Students
- 25 Post-Docs

Riccardo Polini

Most of the students are not talented

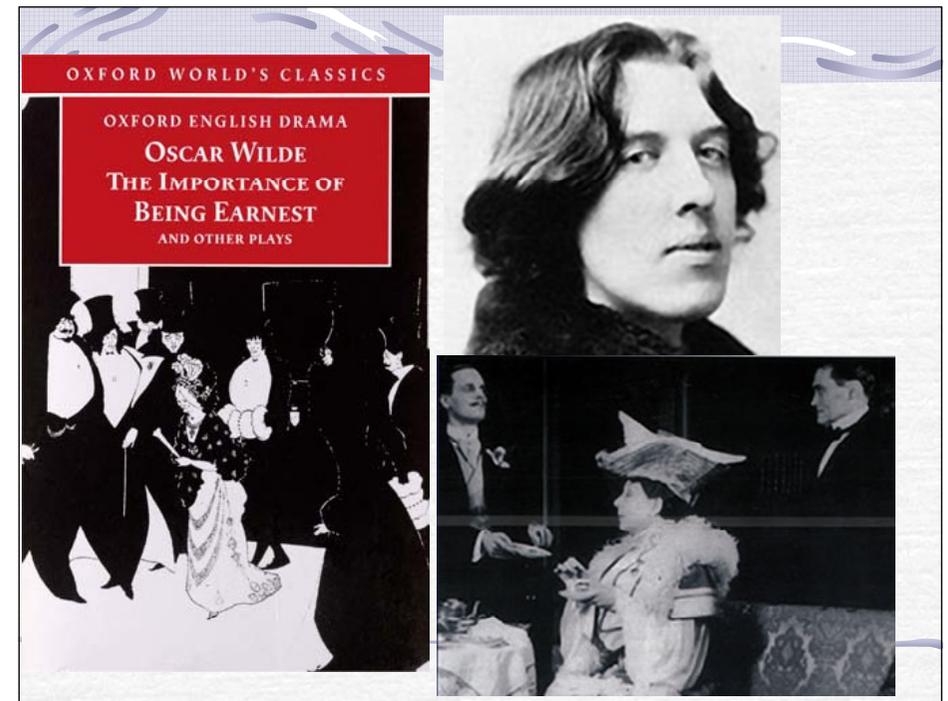

Checking their fist draft of a paper is...

Sometimes also the second draft is:

The PhD student has to learn how to write manuscripts by himself

- Writing papers force the student to understand his work.
- Never hire as a post-doc someone who did not write papers by himself (some good Professors like to write also for their students – do not trust).
- Professors have to guide and correct mistakes.
- Without talent, **training** can help.

Golden rules to write manuscripts

- You have to tell a story.
- Make clear why are you telling the story, what is your goal (the conclusions).
- Keep the story simple, do not try to tell too many things all together.
- Choose the figures first and check that you have all the pieces needed to support your story.
- Put your story in a context and make it appealing: write the background in the introduction.
- Write the paper, then write the abstract at the end, and finally go back to the conclusions and check that everything is sound.

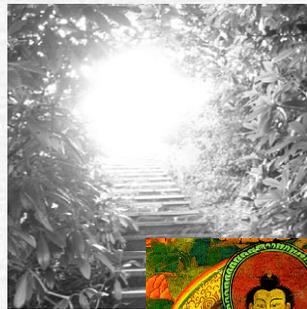

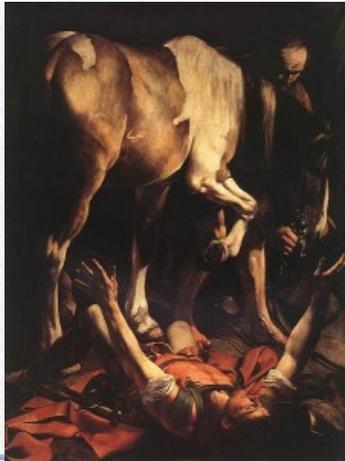

Exercise of writing

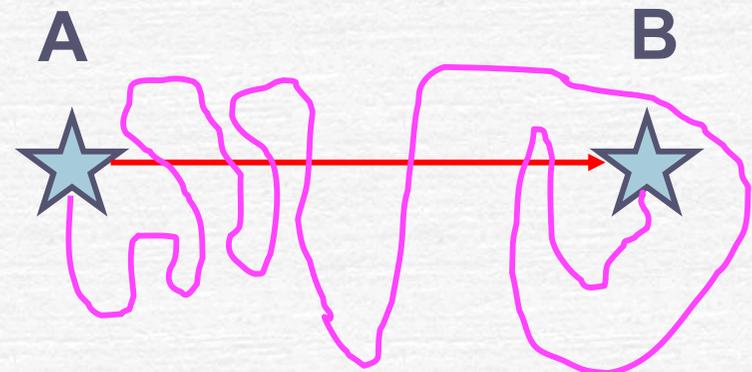

- Writing novels: needs creativity and imagination
- Writing scientific papers: needs creativity, different kind of imagination, and **logic**
- You can develop your **style** also in writing scientific papers

Clarity of mind

Clarity of mind

Both ideas and words should be straightforward

My Research Topics

- ☞ Corrosion
- ☞ Humidity sensors
- ☞ Semiconducting oxide gas sensors
- ☞ p-n heterocontacts
- ☞ Electrochemical gas sensors
- ☞ Solid oxide fuel cells
- ☞ Polymeric electrolyte membrane fuel cells
- ☞ Lithium ion batteries
- ☞ Solar cells
- ☞ Plastics recycling
- ☞ Nanostructured materials
- ☞ Hybrid materials
- ☞ Mesostructured materials
- ☞ Nanocomposites
- ☞ Diamond films
- ☞ Antibacterial/antifungi coatings and films
- ☞ Tissue engineering
- ☞ Nanotoxicology
- ☞ Drug delivery
- ☞ Thin films
- ☞ Thick films

194 citations

Sensors and Actuators B 23 (1995) 135–156

Ceramic sensors for humidity detection: the state-of-the-art and future developments

Enrico Traversa

Dipartimento di Scienze e Tecnologie Chimiche, Università di Roma "Tor Vergata", via della Ricerca Scientifica, 00133 Roma, Italy

Received 15 September 1993; accepted 20 September 1994

75 citations

Sensors and Actuators B 31 (1996) 59–70

Ceramic thin films by sol-gel processing as novel materials for integrated humidity sensors

Enrico Traversa^{a,*}, Guglielmina Gnappi^a, Angelo Montenero^a, Gualtiero Gusmano^a

^a*Dipartimento di Scienze e Tecnologie Chimiche, Università di Roma "Tor Vergata", Via della Ricerca Scientifica, 00133 Roma, Italy*
